

3. Mountain Chute Generating Station

Paddlers approaching Mountain Chute Generating Station will notice an island in the head pond and must keep to its south side, where they will see a causway linking the island with the mainland.

The portage begins here and continues 1.8 kilometres along an access road to Cananto Lodge Road, ending at a boat launch in Norcan Lake which is joined to the Madawaska River at this point.

4. Barrett Chute Generating Station

Paddlers must keep to the North shore when approaching the dam and will come to a point at the mouth of a long bay.

Paddlers are to keep close to the point upon their entry in to the bay and travel approximately 0.2 kilometres into the bay where the portage begins. The route follows a property fence for approximately 1.0 kilometres where it rejoins the river below the generating station.

5. Calabogie Generating Station

The portage route around Calabogie Generating Station begins at the public boat launch at the lower end of Calabogie Lake. Paddlers traveling down the river must keep to the South-east shore and exit at the public boat launch.

The route crosses County Road 511 and follows marked trails rejoining the river 1.6 kilometres downstream of the generating station.
